

Pairs of Angles

In the figures below, \overleftrightarrow{AB} and \overleftrightarrow{PQ} are straight lines. Look at the figures and identify the pairs of angles as adjacent, vertical, or linear.

1)

$\angle 1$ and $\angle 2$ are _____.

$\angle 2$ and $\angle 5$ are _____.

$\angle 4$ and $\angle 5$ are _____.

$\angle 1$ and $\angle 6$ are _____.

2)

$\angle 2$ and $\angle 3$ are _____.

$\angle 5$ and $\angle 6$ are _____.

$\angle 1$ and $\angle 5$ are _____.

$\angle 3$ and $\angle 4$ are _____.
