

Double Bar Graphs

A company conducted a survey to find out the most popular movie genres on two streaming services. The double bar graph below depicts how many people prefer each genre. Read and interpret the bar graph and answer the questions.

- 1) Find the number of people who watch the drama genre on Streaming Service A. _____
- 2) How many more people watch fantasy movies on Streaming Service B than Streaming Service A? _____
- 3) Find the total number of people who watch thrillers and action on Streaming Service B. _____
- 4) Which is the least popular genre on Streaming Service A? _____
- 5) Which is the most popular genre on Streaming Service B? _____
