

Make and Interpret the Plot

The below table shows the time taken (in minutes) to solve a 250-piece jigsaw puzzle by students of 4th grade.

Students	Alice	Ed	Mike	Sally	Nate	Guy	Oscar	Meg	Gwen	Eric
Time taken (in minutes)	19	25	7	11	28	14	4	23	32	39

Make a box-and-whisker plot.

- 1) What is the median of the given data? _____
- 2) Who took the longest to complete the puzzle? _____
- 3) What is the first quartile? _____
- 4) How long did Ed take to solve the puzzle than Mike? _____
- 5) Who took the shortest amount of time to solve the jigsaw puzzle? _____
