

Cause and Effect

Read each text and complete the table by writing the missing cause or effect.

1. Causes of teeth discoloration are many. For one, beverages like coffee and tea can stain the teeth. Also, teeth can become yellow because of aging. That is to say, over the years, the enamel becomes thin and reveals a layer of dentin below, which has a deep yellow color.

1)	Many people
2)	

2. Rock ptarmigan
outwit their predators
in winter and blend

1)	
2)	The birds turn snowy white in winter.
