

Parts of a Circle

Center	The center is the middle point inside a circle that is equally spaced from all other points in the circle.
Diameter	The diameter is a line segment passing through the center of a circle and has its endpoints on the circumference of the circle.
Radius	The distance between the center and the circumference of a circle is the radius.
Circumference	The circumference is the distance around the boundary of a circle. It is also known as the perimeter of the circle.
