

# GCF and Distributive Property

---

Find the GCF. Rewrite each expression as the product of the GCF and a sum using the distributive property.

1)  $20 + 45$

GCF = \_\_\_\_\_

$20 + 45 =$  \_\_\_\_\_

2)  $6 + 32$

GCF = \_\_\_\_\_

$6 + 32 =$  \_\_\_\_\_

3)  $57 + 12$

GCF = \_\_\_\_\_

$57 + 12 =$  \_\_\_\_\_

4)  $78 + 48$

GCF = \_\_\_\_\_

$78 + 48 =$  \_\_\_\_\_

5)  $80 + 4$

GCF = \_\_\_\_\_

$80 + 4 =$  \_\_\_\_\_

6)  $28 + 63$

GCF = \_\_\_\_\_

$28 + 63 =$  \_\_\_\_\_

7)  $16 + 96$

GCF = \_\_\_\_\_

$16 + 96 =$  \_\_\_\_\_

8)  $33 + 22$

GCF = \_\_\_\_\_

$33 + 22 =$  \_\_\_\_\_
