

# GCF and Distributive Property

---

Find the GCF. Rewrite each expression as the product of the GCF and a sum using the distributive property.

1)  $3 + 30$

GCF = \_\_\_\_\_

$3 + 30 =$  \_\_\_\_\_

2)  $99 + 55$

GCF = \_\_\_\_\_

$99 + 55 =$  \_\_\_\_\_

3)  $60 + 18$

GCF = \_\_\_\_\_

$60 + 18 =$  \_\_\_\_\_

4)  $22 + 38$

GCF = \_\_\_\_\_

$22 + 38 =$  \_\_\_\_\_

5)  $75 + 5$

GCF = \_\_\_\_\_

$75 + 5 =$  \_\_\_\_\_

6)  $14 + 56$

GCF = \_\_\_\_\_

$14 + 56 =$  \_\_\_\_\_

7)  $27 + 63$

GCF = \_\_\_\_\_

$27 + 63 =$  \_\_\_\_\_

8)  $12 + 44$

GCF = \_\_\_\_\_

$12 + 44 =$  \_\_\_\_\_
