Multiplying Three Fractions

1) $\dfrac{9}{6} \times \dfrac{1}{2} \times \dfrac{3}{7}$

_____

2) $\dfrac{12}{8} \times \dfrac{14}{4} \times \dfrac{16}{7}$

_____

3) $\dfrac{3}{} \times \dfrac{2}{} \times \dfrac{15}{}$

4) $\dfrac{22}{} \times \dfrac{2}{} \times \dfrac{18}{}$

5)

7)

_____

8) Ian's ice-cream cone has a slant height of $\dfrac{25}{4}$ inches and a radius of $\dfrac{7}{3}$ inches. Find the surface area of the cone.

[Hint: Surface area $= \pi \times$ radius $\times$ slant height and use $\dfrac{22}{7}$ for π]

_____
