

Multiplying and Dividing Integers

Write the missing integers that make the multiplication and division equations true.

1) _____ \div 2 = 15

2) -7 \times _____ = -35

3) 8 \times _____ = -32

4) _____ \div -8 = 13

5) -132 \div _____ = -11

6) _____ \times 3 = 42

7) _____ \times 7 = 0

8) -39 \div _____ = -13

9) _____ \div 9 = -12

10) 4 \times _____ = -40

11) -2 \times _____ = -28

12) _____ \div 5 = 14

13) _____ \div -11 = -6

14) -15 \times _____ = 75

15) -8 \times _____ = 64

16) _____ \div -7 = -3
