Making a Double Line Graph

The average yearly rainfall in two cities (City A , City B) are recorded in a table.The data shows the average rainfall (in inches) from 2012 to 2016. Read the data carefully and draw a double line graph.

Year	Average Rainfall (in inches)	
	City A	City B
2012	3	2
2013	4	5
2014	7	6
2015	5	3
2016	4	8

Average Rainfall

● —— City A
