

Making a Line Plot

Get in touch with a summer camp coordinator and find out the number of children, including their ages, who attended the camp last year. Make a line plot using the data and answer the questions that follow.

Children Who Attended Summer Camp													
Children's Age	5	6	7	8	9	10	11	12	13	14	15	16	17
Number of Children
