

Comparing Money

Count the coins. Use $>$, $<$, or $=$ to compare the money.

1)

The first handbag contains 7 coins: one penny, one dime, one nickel, one quarter, one dime, one dime, and one penny. The second handbag contains 8 coins: one dime, one dime, one dime, one penny, one dime, one dime, one dime, and one penny. A large empty circle is placed between the two handbags for comparison.
