

Subtracting Money

A brand-new toy store opened in New Jersey last week. Lee and his friends visited the store. Help them calculate the amount left after their purchases.

- 1) Ja
di
- 2) Ke
\$25 in her wallet, how much more does she need?
- 3) Hannah had a store coupon worth \$10, and she buys a building block set. How much more money does she need? \$ _____
- 4) Lee wants to buy an action figure toy, but he only has enough money to buy a unicorn doll. By how much is he falling short? \$ _____
- 5) James wants a toy remote car. If the store offers an instant rebate of \$7 how much should he pay? \$ _____
