# Ordered Pairs

Plot each set of ordered pairs. Join the points, and find the length of the line segment.

1) (1, −4) , (2, −4)
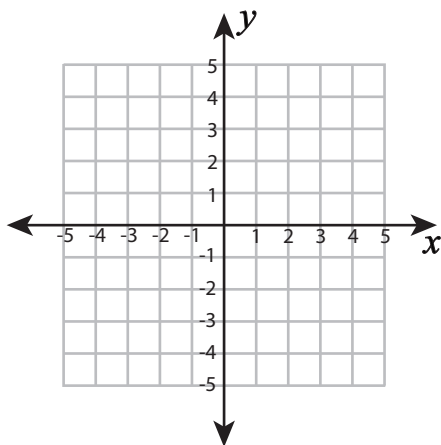

Length of the line segment = _____

2) (−5, 4) , (5, 4)

Length of the line segment = _____

3) (4, 3) , (4, −1)

Length of the line segment = _____

4) (−3, 0) , (−3, −3)

Length of the line segment = _____

5) How far is the giraffe from the grass?   _____

6) Which animal is closer to the pond: _____
   the lion or the deer?

7) How many units should the deer move to   _____
   reach the pond?
