

# Circumference of a Circle

Find the circumference of each circle. (use  $\pi = 3.14$ )

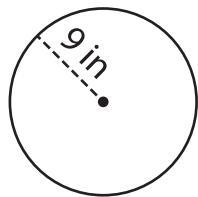

1)

2)

3)

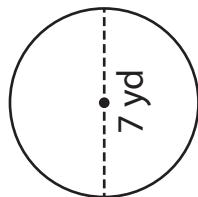

Circumference = \_\_\_\_\_

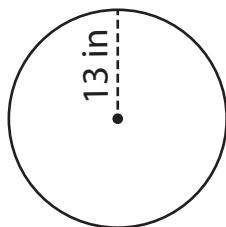

Circumference = \_\_\_\_\_

Circumference = \_\_\_\_\_

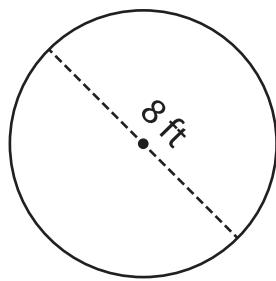

4)

5)

6)

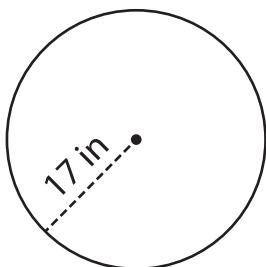

Circumference = \_\_\_\_\_

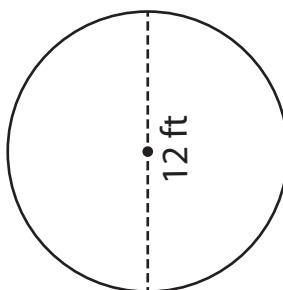

Circumference = \_\_\_\_\_

Circumference = \_\_\_\_\_

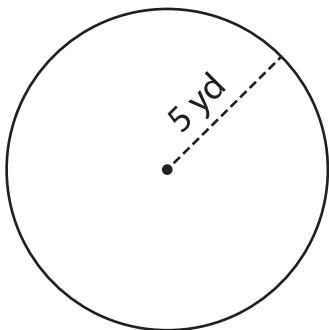

7)

8)

9)

Circumference = \_\_\_\_\_

Circumference = \_\_\_\_\_

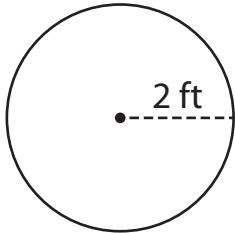

Circumference = \_\_\_\_\_

# Circumference of a Circle

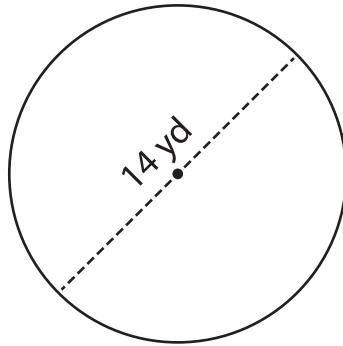

**Answer key**

Find the circumference of each circle. (use  $\pi = 3.14$ )

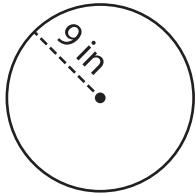

1)

2)

3)

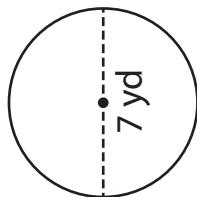

$$\text{Circumference} = \underline{\quad 12.56 \text{ ft} \quad}$$

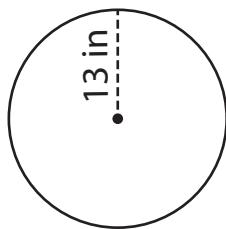

$$\text{Circumference} = \underline{\quad 43.96 \text{ yd} \quad}$$

$$\text{Circumference} = \underline{\quad 56.52 \text{ in} \quad}$$

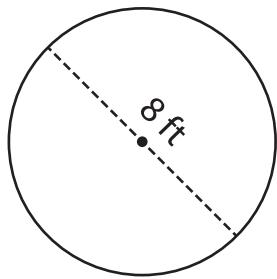

4)

5)

6)

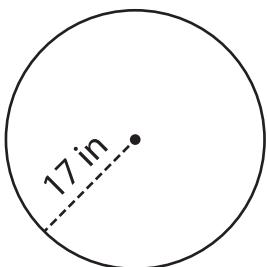

$$\text{Circumference} = \underline{\quad 21.98 \text{ yd} \quad}$$

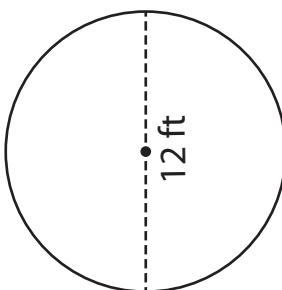

$$\text{Circumference} = \underline{\quad 81.64 \text{ in} \quad}$$

$$\text{Circumference} = \underline{\quad 25.12 \text{ ft} \quad}$$

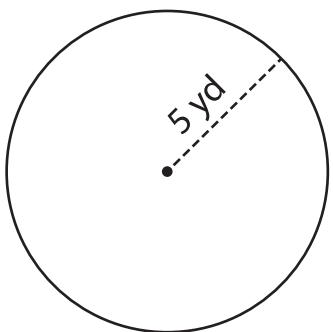

7)

8)

9)

$$\text{Circumference} = \underline{\quad 106.76 \text{ in} \quad}$$

$$\text{Circumference} = \underline{\quad 37.68 \text{ ft} \quad}$$

$$\text{Circumference} = \underline{\quad 31.4 \text{ yd} \quad}$$
