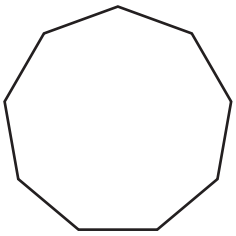
Polygons | Finding the Side Lengths

Find the side length of each regular polygon.

1)

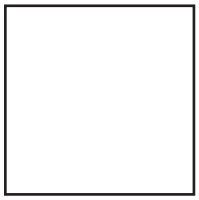


Perimeter = 90 cm

Number of sides = _____

Length of each side = _____

2)

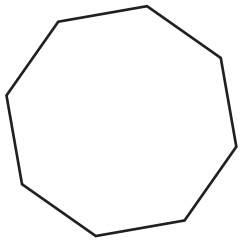


Perimeter = 124 m

Number of sides = _____

Length of each side = _____

3)

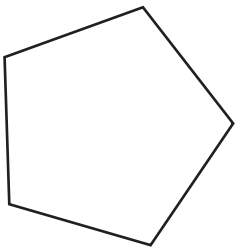


Perimeter = 72 mm

Number of sides = _____

Length of each side = _____

4)

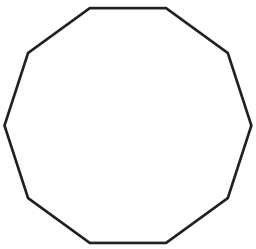


Perimeter = 35 m

Number of sides = _____

Length of each side = _____

5)

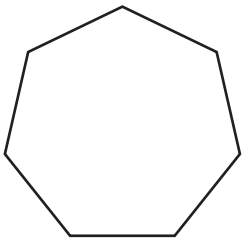


Perimeter = 220 mm

Number of sides = _____

Length of each side = _____

6)

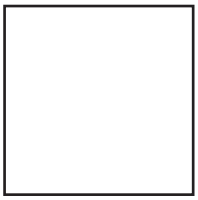


Perimeter = 112 cm

Number of sides = _____

Length of each side = _____

7)

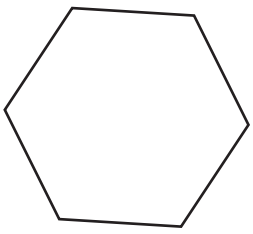


Perimeter = 160 mm

Number of sides = _____

Length of each side = _____

8)

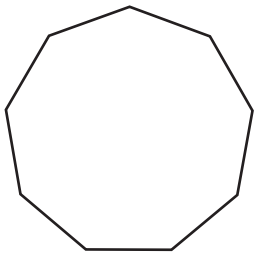


Perimeter = 204 cm

Number of sides = _____

Length of each side = _____

9)



Perimeter = 252 m

Number of sides = _____

Length of each side = _____
