Unit Rate

Write the rate and unit rate for each phrase given below.

1) 30 books in 5 shelves.
   Rate: ____________________________
   Unit Rate: _______________________

2) 72 apples in 6 bags.
   Rate: ____________________________
   Unit Rate: _______________________

3) 99 students in 3 buses.
   Rate: ____________________________
   Unit Rate: _______________________

4) 42 balloons in 7 packs.
   Rate: ____________________________
   Unit Rate: _______________________

5) 5 cardigans for $55.
   Rate: ____________________________
   Unit Rate: _______________________
Unit Rate

Write the rate and unit rate for each phrase given below.

1) 30 books in 5 shelves.

Rate: \( \frac{30 \text{ books}}{5 \text{ shelves}} \)

Unit Rate: \( 6 \text{ books per shelf} \)

2) 72 apples in 6 bags.

Rate: \( \frac{72 \text{ apples}}{6 \text{ bags}} \)

Unit Rate: \( 12 \text{ apples per bag} \)

3) 99 students in 3 buses.

Rate: \( \frac{99 \text{ students}}{3 \text{ buses}} \)

Unit Rate: \( 33 \text{ students per bus} \)

4) 42 balloons in 7 packs.

Rate: \( \frac{42 \text{ balloons}}{7 \text{ packs}} \)

Unit Rate: \( 6 \text{ balloons per pack} \)

5) 5 cardigans for $55.

Rate: \( \frac{$55}{5 \text{ cardigans}} \)

Unit Rate: \( $11 \text{ per cardigan} \)
