all.

ugh.

Lola swims farther into the water. The waves bounce her up and down. She laughs and spins in the water.

Later, Dad helps her put on her goggles. She holds her nose and goes under the water. With her goggles on, she can see small fish swimming through the water. She sees shells on the sandy ocean floor. She pulls a large shell from the sand and then swims back to the shore.

A Day at the Beach

Lola shows her shell to her little sister, who stares at it in amazement. Lola smiles. She tells her little sister she can keep the shell. Her little sister gives Lola a big hug.

When the day is done, Lola helps clean up their spot on the beach. It is time to go home, but it was a great day at the beach.
