

Sequencing

Write 1, 2, 3, and 4 to indicate the order of events in each set.

The old man realized the coins were better spent than stolen.	
An old man kept his gold coins hidden in his yard.	
One day, he found the coins missing; someone had stolen them.

A tortoise made fun of a bird, saying its nest was ugly and shabby.	
She also said that her home has space for loved ones, unlike his house.	

The elephant finally learned his lesson as he howled in pain.	
The ants had had enough, so they got inside his trunk and bit hard.	
He blew at them and sprayed water on them with his trunk.	
An elephant loved bullying the ants that lived nearby.
