

Slope | Equation

Find the slope from the given equation.

1) $5x + 3y + 12 = 0$

slope = _____

2) $7x - 9 = y$

slope = _____

3) $-10 = 8x - y$

slope = _____

4) $4y - 15 = -3x$

slope = _____

5) $x = 3 + 7y$

slope = _____

6) $6x + 2y = -1$

slope = _____

7) $10x + 2y = -9$

slope = _____

8) $5y - 8x + 16 = 0$

slope = _____

9) Find the slope of the line whose equation is $5x = -6y + 9$.
