

# Weather

**Weather** refers to the temperature and other conditions at a particular time and place.

**Climate** refers to the average weather of a place over a longer period of time.

A) Read each scenario and underline the part that talks about weather.

1) Reykjavik is the capital of Iceland. Strong winds known as gales are common during winters here. Last Monday, many flights were canceled because of

when the mercury breached 100 °F.

2) Summers in Jacksonville are typically hot and humid, with plenty of rain. A cloudy morning last September was no different, with the humidity peaking at 95%.

3) The sky was mostly clear on the third Sunday of January this year in Syracuse, though winters in this city are known to be cold and cloudy, with one of the highest amounts of snow in all of America.
