

Angles in Polygons

Find the sum of the interior angles of each polygon.

1)

Number of sides = _____

Sum of the interior angles = _____

2)

Number of sides = _____

Sum of the interior angles = _____

3)

Number of sides = _____

Sum of the interior angles = _____

4)

Number of sides = _____

Sum of the interior angles = _____

5)

Number of sides = _____

Sum of the interior angles = _____

6)

Number of sides = _____

Sum of the interior angles = _____

7)

Number of sides = _____

Sum of the interior angles = _____

8)

Number of sides = _____

Sum of the interior angles = _____

9)

Number of sides = _____

Sum of the interior angles = _____
