

Reading and Interpreting Scaled Bar Graphs

The bar graph about a Sellersville library shows how many books of different genres were checked out over the weekend. Read and interpret the graph to answer the questions.

- 1) Find the combined number of humor and adventure books checked out.
- 2) How many books were borrowed in all?
- 3) How many more horror books were checked out than thriller and adventure books put together?
- 4) Which of the two combined categories was checked out more?
- 5) Order the genres from least popular to most popular.
