

Creating a Box Plot

Create a box-and-whisker plot for each data set.

- 1) A store recorded the prices, in dollars, of 9 different products. The prices are as follows:

12, 18.5, 21.30, 22.70, 14.20, 19.90, 15.80, 17.20, and 25.

Create a box-and-whisker plot for the prices.
