

Equal Groups

Answer Key

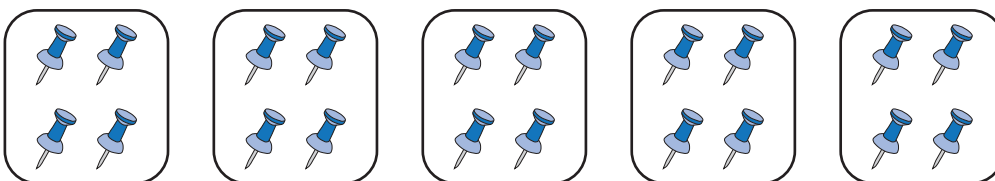

Write a division equation to describe each model.

1)

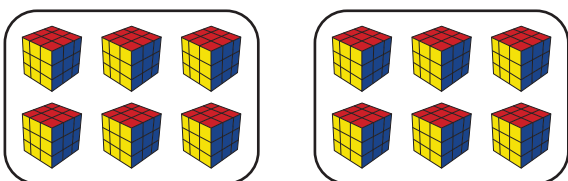

$$\underline{14} \div \underline{2} = \underline{7} \text{ groups}$$

2)

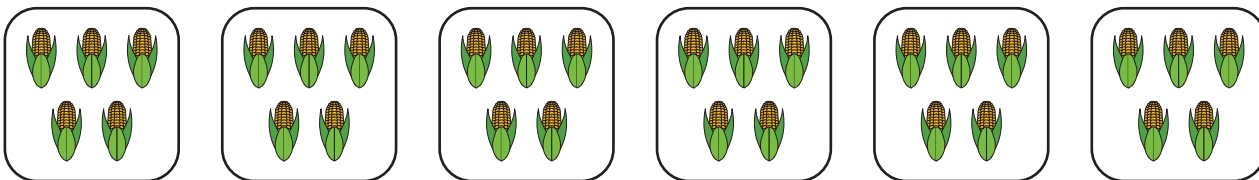

$$\underline{20} \div \underline{4} = \underline{5} \text{ groups}$$

3)

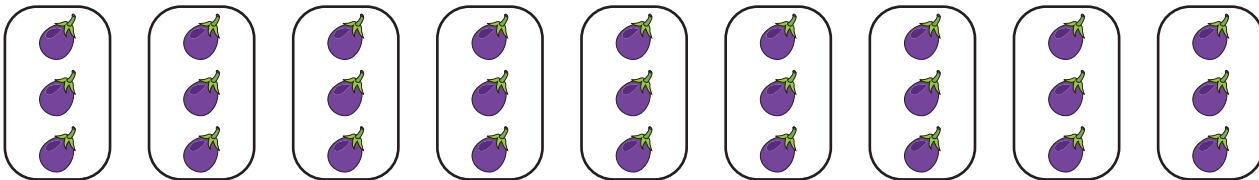

$$\underline{12} \div \underline{6} = \underline{2} \text{ groups}$$

4)

$$\underline{30} \div \underline{5} = \underline{6} \text{ groups}$$

5)

$$\underline{27} \div \underline{3} = \underline{9} \text{ groups}$$
