

# Representing Data Using Line Graphs

- 1) The table below shows the number of stalls set up at a county fair over a period of 8 years. Draw a line graph to represent the data.

Years	Number of Stalls
2012	125
2013	175
2014	150
2015	200
2016	225
2017	275
2018	250
2019	300

- 2) Tanya gathers data on new businesses opening in her city. The table shows the number of new businesses set up over a period of 6 months. Draw a line graph to represent the data.

Months	Number of New Businesses
January	25
February	15
March	10
April	35
May	45
June	40
