

# Making Line Plots

- 1) Thirty students took an online typing test to determine their typing speed. Recorded and tabulated below is the typing speed (words per minute) of each student. Make a line plot to represent the data.

39	37	42	44	41
43	38	43	42	40
39	40	42	43	44
41	42	43	44	40
42	37	38	40	41
40	39	41	44	43

- 2) Guests at Emilia's birthday party engaged in a cup stacking game. The data shows the number of cups each of the 25 participants managed to stack within 30 seconds to make a perfect pyramid. Make a line plot to represent the data.
