

Representing Data using Circle Graph Answer Key

A car dealership wants to show the sales distribution of different car models for August. Create a circle graph to visualize the car sales data.

(Drawings may vary)

Types of Cars	Number of Cars	Central Angles
SUVs	64	128°
Sedans	51	102°
Trucks	35	70°
Minivans	10	20°
Sports cars	20	40°
Total	180	360°
