

# Reading a Circle Graph

- 1) A travel channel conducted a survey among its viewers to find out about their favorite outdoor activity and plotted the results on a circle graph. Analyze the graph and answer the questions below.

**Favorite Outdoor Activities**

- 1) How many viewers said hiking was their favorite outdoor activity?

---

- 2) Which two activities are viewers equally fond of?

---

- 3) How many viewers were surveyed altogether?

---

- 2) The Happy Valley Petting Zoo keeps track of the number of visitors it receives in a week. The data is represented in a circle graph, with each sector representing a day of the week.

- 1) Which day had the highest number of visitors?

---

- 2) How many more people visited the zoo on Tuesday than on Thursday?

---

- 3) How many people visited the zoo in total?

---

**Number of Visitors**
