

Decomposing 2-Digit Numbers

A) Decompose each number in multiple ways and fill in the missing numbers.

1) $37 = \underline{\quad}$ tens + 17 ones

2) $42 = 4$ tens + $\underline{\quad}$ ones

$37 = 3$ tens + $\underline{\quad}$ ones

$42 = \underline{\quad}$ tens + 12 ones

$37 = \underline{\quad}$ ones

$42 = \underline{\quad}$ ones

3) 6.
