

Reflection of Shapes

Graph each shape after reflecting it as directed.

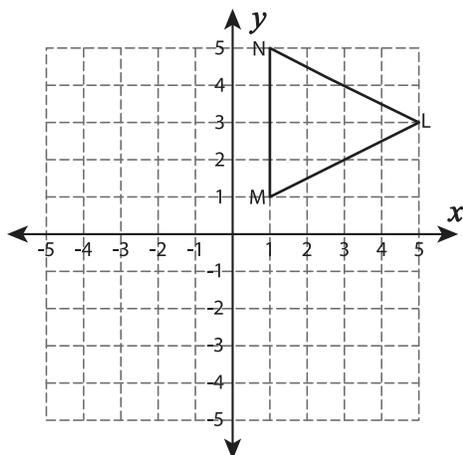

- 1) Reflection across the line $x = -4$

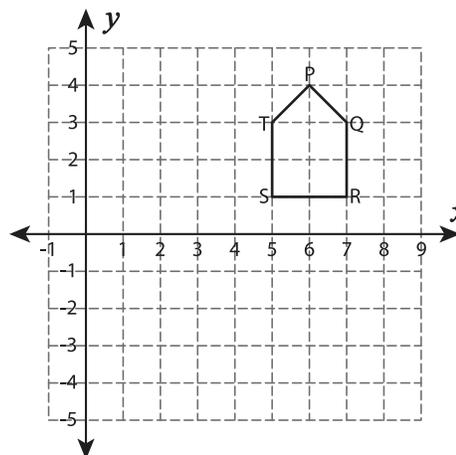

- 2) Reflection across the line $y = -5$

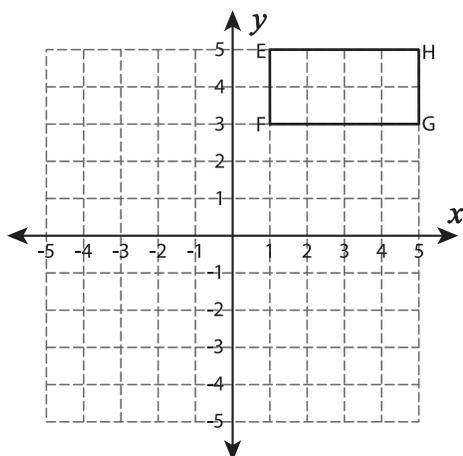

- 3) Reflection across the line $y = -x$

- 4) Reflection across the line $x = 3$

- 5) Reflection across the line $y = 1$

- 6) Reflection across the y-axis
